Summary

Detail-oriented and highly analytical professional with experience in SQL, Python, Tableau, ETL workflows, and AI-powered analytics applications. Skilled in analyzing large datasets, optimizing queries, automating reporting processes, and building interactive dashboards and AI-driven solutions that support business decision-making. Strong problem-solving, communication, and adaptability skills with a passion for turning data into actionable insights.

Skills

SQL | Tableau | Power BI | EDA (Exploratory Data Analysis) | SSMS | Google Gemini API | Python | GIT |
Excel (VLOOKUP, Pivot Tables) | ETL Pipelines | Rest APIs | Analytics | Machine Learning | React.js

Professional Experience

Infoshare Systems, Inc. - Data Engineer Intern 05/2026 | Remote

- Designed and maintained ETL pipelines for processing structured and semi-structured data from JSON/XML sources while supporting data integration workflows.
- Performed database debugging, query tuning, performance monitoring, and automation of data processing tasks to improve system reliability and efficiency.

Fox Corporation - Data Analyst/Developer Intern 06/2025 – 09/2025 | Los Angeles, CA

- Wrote and optimized complex SQL queries using **CTEs, joins, and window functions** across production databases to monitor system health, detect anomalies, and reduce manual reporting effort by 40%.
- Built 6+ Tableau dashboards tracking KPIs including system usage, performance trends, and error rates for cross-functional stakeholders.
- Validated ETL pipelines (100K+ daily records) through reconciliation checks and data quality testing, improving reporting accuracy by 25%.

Vistora Technologies Inc - Web Developer Intern 03/2025 – 05/2025 | Remote

- Built responsive React.js components from Figma designs and integrated REST APIs for dynamic product metrics.

Code Ninjas - Center Manager / Code Sensei 02/2023 – 12/2023 | Tracy, CA

- Built **Power BI** and **Excel** dashboards tracking engagement, retention, and curriculum completion metrics for 200+ students.
- Analyzed enrollment trends using **Google Analytics** and campaign data, contributing to an 30% increase in student sign-ups.
- Implemented data-driven marketing strategies using analytics tools and social insights.

Visionyle Solutions LTD - Software Developer 07/2021 – 02/2023 | Vijayawada, AP, India

- Optimized SQL queries for a student information system serving 1,000+ users, reducing report latency by 35%.
- Automated backend processes using Python and Bash, improving operational efficiency by 25%.
- Integrated JSON/XML feeds and performed query tuning and database performance monitoring.

Projects

AI Data-to-Insight Agent 📄

- Built an AI-powered analytics dashboard using **Streamlit**, **Plotly**, and Google Gemini **API** to generate automated insights, visualizations, and **EDA** reports from structured datasets. Developed anomaly detection, behavioral segmentation, and AI chatbot features using aggregated **KPIs** and trend analysis. Deployed an interactive self-service analytics platform supporting **CSV/Excel** uploads and exportable insight reports.

Budget Buddy – Full-Stack Finance App 📄

- Built **data-driven financial insights platform** with React, Node.js, MongoDB, enabling real-time expense tracking and forecasting.
- Created **RESTful APIs**, managed CRUD operations, and tested endpoints with **Postman**.
- Implemented user authentication, Integrated **data visualization**, and styled responsive UI with **HTML/CSS** and **JavaScript**.

Image Insight Bot | Python, Streamlit, Gemini API 📄

- Built an AI-powered image analytics app using Streamlit and Gemini Vision API to generate captions, detect objects, and classify uploaded images.
- Implemented structured JSON outputs, confidence scoring, and exportable analytics for marketing insights.

Depression Score Calculator – Mental Health Web App 📄

- Built with **Python**, **Streamlit**, **Pandas**, and **NumPy** to assess DASS-42 scores and generate insights.
- Visualized results using **Seaborn** and **Matplotlib**, with optional CSV export for offline analysis.
- Designed accessible **UX** for users seeking private mental health self-evaluation.

Certificates

Power BI for Business Analysts ~ April 2025 📄 , Workday HCM Mentorship Program Training 📄

Education

University of California, Riverside - M.S. in Computer Science

2025 | Riverside, CA
